

TABLE TOP FILLER

Precision.

Paired with our Table Top Heat Sealing equipment, or simply on its own, the Table Top Filler allows quick and easy packaging in a variety of sizes and products.

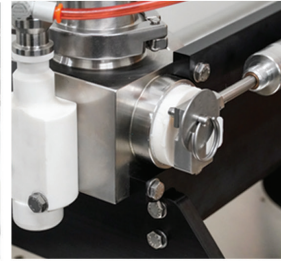

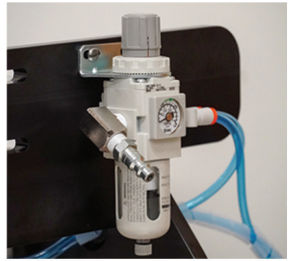

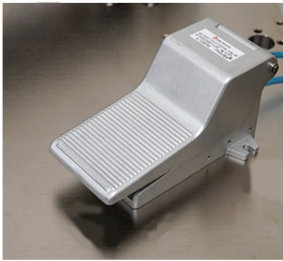

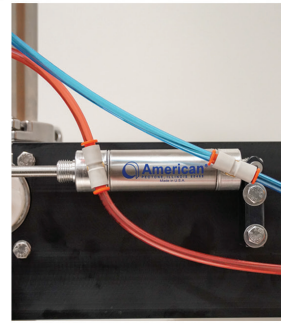

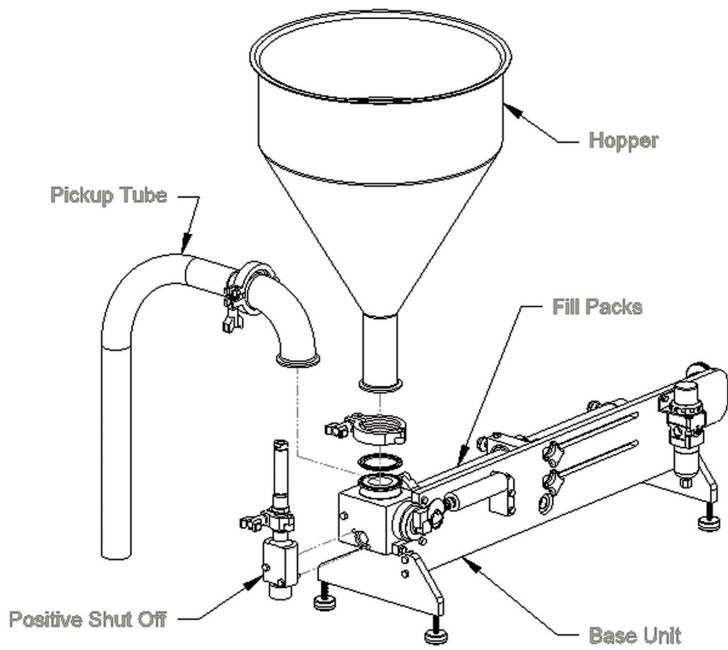

From Salsas to your Secret House Sauce, the Table Top Sealer removes the hassle of pouring or squeezing your product into serving cups! The Table Top Sealer also utilizes “No Drip” Technology which means more time packaging and less time mopping up the mess!

Excellence.

Proudly made in the USA, the Table Top Filler is top of the line in quality and durability. Embrace the Table Top Filler as your next packaging solution today!

We are committed to making solutions for your packaging needs. That includes after the product ships! We understand no product is the same. That’s why our service department is standing by to answer your questions and troubleshoot to get a clean fill every time!
